

## Questionnaire

### Interface 1:

Please answer the questions by providing a number ranging from 1 to 5, 1 being completely disagree and 5 being completely agree.

<i>Would you like to work with the program when you do not have to?</i>	
<i>Do you think it is boring to work with the program?</i>	
<i>Would you recommend the program to a friend?</i>	
<i>Do you think the program is too limited with regard to input possibilities?</i>	
<i>Is the program is too difficult to work with?</i>	
<i>When you have worked with the program once, does it remain fun?</i>	
<i>Do you enjoy yourself when you are working with the program?</i>	
<i>Did the program often surprise you?</i>	
<i>Do you think that you have performed well on the task?</i>	
<i>Would you like to have the program at home?</i>	
<i>Did you make many mistakes while working with the program?</i>	

Interface 1:

Please answer the questions by providing a number ranging from 1 to 5, 1 being completely disagree and 5 being completely agree.

<i>I think that I would like to use this program frequently</i>	
<i>I found the program unnecessarily complex</i>	
<i>I thought the program was easy to use</i>	
<i>I think that I would need the support of a technical person to be able to use this program</i>	
<i>I found the various functions in this program were well integrated</i>	
<i>I thought there was too much inconsistency in this program</i>	
<i>I would imagine that most people would learn to use this program very quickly</i>	
<i>I found the program very cumbersome to use</i>	
<i>I felt very confident using the program</i>	
<i>I needed to learn a lot of things before I could get going with this program</i>	

## Questionnaire
